

A moment with Tizane McEvoy

Everyone in Operatunity's latest show, "The Great Gatsby Era" has plenty of talent, but one of our stars that has been causing a buzz is Tizane McEvoy.

Tizane took some time out of preparing for the show to share her experiences with the tour so far.

You may have seen her in a number of major roles in recent national tours, such as "Mabel" in "Pirates of Penzance" and "Nellie" in "South Pacific". While Tizane has an impressive repertoire across a number of genres, she has a soft spot for the style in the Great Gatsby era.

"During the period, they had some amazing music. The rhythms were strong, yet the lyrics were always important and meaningful," she said. "Not to mention, the fashion was just so decadent and fabulous".

Tizane is always full of energy and enjoys performing Operatunity's unique take on the Charleston.

"It's probably my favourite number in the show, full of theatrics and silliness," she explained. "It's in a great part of the show, just when the audience has thought they've seen it all!"

Building a strong team of performers is the key ingredient to our shows and this string of performances has proven to be a winner again for Tizane.

"I always jump at the chance to go on tour with Operatunity," she said. 'Although the tour is a big undertaking, it makes a huge difference when you have a great team with plenty of energy".

Throughout the tour, Tizane has gotten to know her fellow performers better, but it's the audience interaction that makes her time with us truly special.

"Getting to mingle with our audience is really inspiring," she said. "It really is a beautiful experience that is unique to Operatunity".

Tizane and the gang will be touring the Lower North Island this week so come along to see her live yourself. You can also pick up a copy of Tizane's CD "Moonfall" with tunes accompanied by pianist Penny Dodd.
